

# WHY GET OUR DENTAL ENDORSEMENT?

***"Bradley Bale, MD and Amy Doneen, DNP are among the most influential names in cardiology.***

— Rachel O'Connor, PA-S and Jonathan B. Levine, DMD, HuffingtonPost

***"As an individual with a family history of early CVD, Drs. Amy Doneen and Brad Bale have saved my life! As a dentist, their teachings are the central focus of my growing fee-for-service dental practice — helping my patients with root causes of CVD, such as periodontal pathogens, periapical lesions and sleep apnea. The BaleDoneen Method has greatly improved my life and my dental practice — and it will improve yours!"***

— Michael L. Milligan, DMD, FAAOSH, Founder & President, American Academy for Oral Systemic Health

***"The new BaleDoneen Dental Endorsement is an exciting opportunity for all dental professionals. Drs. Bale and Doneen have been the leaders, providing landmark research that proved oral pathogens from periodontal disease are causal in cardiovascular disease. This is a game-changer, cementing the link between oral and systemic health, uniting dentistry and medicine. My advice is get involved now — and be recognized by today's informed patient seeking optimal oral care!"***

— V. Kim Kutsch, DMD, Past President of the American Academy of Laser Dentistry & CEO of CariFree

***"I can't imagine practicing dentistry without the education of BaleDoneen Method. I tell my team, 'It's a good day to save a smile... it's a great day to save a life!'"***

— Kelly Robinson, DDS, PA, Lubbock, TX

***"Bradley Bale, MD, and Amy Doneen, DNP, are on the leading edge of prevention of heart attacks. I am a firm and vociferous believer in their prevention plan."***

— Tommy Thompson, Former U.S. Secretary of Health and Human Services

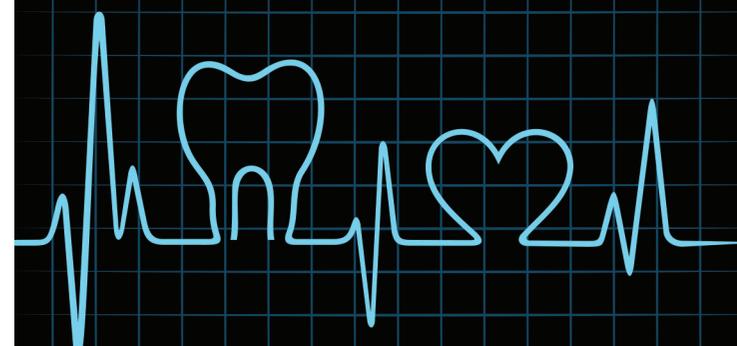

## The BaleDoneen Method Leading by Excellence

**Bradley Bale, MD, and Amy Doneen, DNP,** co-founded the BaleDoneen Method for the prevention of heart attack, stroke and diabetes, which they teach to medical and dental providers in their Continuing Medical Education Category 1/Continuing Education Dental-accredited program. Their critically acclaimed book, *Beat the Heart Attack Gene*, is available on Amazon.

They've given hundreds of lectures at leading medical and dental conferences globally and have published their scientific research in many peer-reviewed journals. Dr. Doneen is Medical Director of the Heart Attack & Stroke Prevention Center in Spokane, WA. Dr. Bale has a private clinical practice in Gallatin, TN. Both doctors are Adjunct Professors at Texas Tech Health Sciences Center, Assistant Professors at University of Kentucky College of Dentistry and Clinical Associate Professors at Washington State University College of Medicine.

# HOW TO EARN THE BALE DONEEN METHOD DENTAL ENDORSEMENT

## A Prestigious Recognition of Professional Excellence

*Earning the BaleDoneen Method Dental Endorsement has a rich array of professional and financial benefits for your practice:*

### **The BaleDoneen Method Dental Endorsement**

honors the potentially life-saving role that dental providers can play in heart attack and stroke prevention. Our endorsement is offered exclusively to dentists and dental hygienists who use our evidence-based method to optimize their patients' oral and arterial wellness. To earn this prestigious recognition, you must meet two requirements.

#### **1. ATTEND OUR LIVE OR ONLINE COURSE**

There are two options to qualify for the Dental Endorsement:

- The immediate option is to take our online condensed course, offered at [baledoneen.com](http://baledoneen.com). This course teaches the necessary measures to prevent heart attacks, strokes and type 2 diabetes to ensure that you are familiar with our approach.
- The highly recommended option is our two-day, in-person Preceptorship Course. Approved for up to 17.5 CME/CE credit hours, this intensive, continuously updated program uses an interactive format to teach practical, leading-edge science. You'll return to your practice with all the tools you need to implement our disease/inflammation-based approach to cardiovascular disease (CVD) prevention.

#### **2. TEST PATIENTS FOR HIGH-RISK ORAL BACTERIA**

A landmark, peer-reviewed BaleDoneen publication was the first to identify high-risk oral bacteria from periodontal disease (PD) as causal of cardiovascular disease, the leading killer of Americans.<sup>1</sup> These bacterial villains often enter the bloodstream, posing a triple threat to arterial health called the "atherosclerotic triad." All dental providers endorsed by the BDM must include testing for these pathogens in their protocol for diagnosing and treating PD. Our oral health evaluation also includes a comprehensive exam and advanced imaging for endodontic involvement.

1. Bale BF, Doneen AL and Vigerust DJ. High-risk periodontal pathogens contribute to the pathogenesis of atherosclerosis. *Postgrad Med J* 2016;0 1-6.

#### **Listing on our website as an "endorsed dental provider."**

With 8,500 website visits, more than 125,000 page views and 50 call-in requests per month, patients around the country are looking for local providers who offer the optimal care of the BaleDoneen Method. We will link your website to our online Endorsed Provider listing for maximum exposure.

#### **Monthly Scientific Update Webinars**

In these live one-hour sessions, facilitated by Bradley Bale, MD, or Amy Doneen, DNP, we share the latest peer-reviewed data that makes our method dynamic, and we discuss specific patient cases.

#### **Networking opportunities**

We are building collaborative, mutually profitable new relationships between medical/dental providers, including membership in the vibrant BaleDoneen community, networking events and interactive group discussions of challenging and intriguing patient cases.

#### **Lunch-and-learn speakers' deck**

Being ahead of the printed science positions you as a national and regional expert. You'll gain access to slide decks with key data from the latest studies that would otherwise take hours to compile, a valuable asset for your speaking engagements and presentations.

#### **Potential lucrative referrals**

Because the BaleDoneen Method is based on a medical-dental team approach, medical colleagues in your area will be looking for BDM-endorsed dental providers to deliver the optimal oral care that is a crucial component of our disease/inflammation paradigm. We advise all patients to be checked for periodontal disease and if they have this infection, to get leading-edge treatment.

#### **Use of the respected BaleDoneen Method logo on your website and other professional materials**

Gain the respect of patients and colleagues as an expert in heart attack and stroke prevention and a practitioner of complete, evidence-based healthcare driven by the latest science.

## THE MOST EXCITING BENEFIT:

**Gain the priceless satisfaction of saving lives, hearts and brains with top-quality care that has been shown in multiple peer-reviewed studies to halt, stabilize or reverse cardiovascular disease, helping patients avoid heart attacks and strokes, even if they have already suffered one or more of these events.**
